STATISTICS AND FACTS ABOUT NEBRASKA SCHOOLS

INFORMATION PERTAINING TO PUBLIC AND NON-PUBLIC SCHOOLS OF NEBRASKA FOR THE SCHOOL YEAR 1979-80

Each year the Nebraska State Department of Education obtains statistical information from each public school district, state-operated and non-public school system in the State to fulfill various Federal, State and Departmental requirements. Information is obtained twice each year, at the start of the school year by the Annual Fall Reports and at the end of the school year by the Annual Term Summary Reports. This volume has been prepared from that data reported on the Fall Reports which were received approximately October 1, 1979. Volumn II of the 1979-80 Statistics and Facts about Nebraska Schools will be issued following completion of the school term and receipt of the Annual Term Summary Reports from all school systems. School Finance data is published in a separate document.

INTRODUCTION

In order to interpret the following tables it is important that the reader understand the definitions for the following public school terms:

Class of School District

Class I -- School districts which are organized to provide school for the elementary grades. Generally this includes kindergarten and grades 1 through 8. However, in some cases, a Class I district may be part of a secondary district which provides education for the 7th and 8th grade students.

Class II -- School districts which maintain school for both elementary and secondary grades and have a total population of 1,000 inhabitants or less.

Class III -- School districts which maintain school for both elementary and secondary grades and have a total population of from 1,000 to 50,000 inhabitants.

Class IV -- School districts which maintain school for both elementary and secondary grades and have a total population of from 50,000 to 200,000 inhabitants. (The school district of Lincoln is the only Class IV school district).

Class V -- School districts which maintain school for both Elementary and Secondary grades and have a total of over 200,000 inhabitants. (The school district of Omaha is the only Class V school district).

Class VI -- School districts organized to offer school for only the secondary grades.

SCHOOL CENSUS DATA BY COUNTIES

Nebraska school statutes require that all children and youth from birth through twenty years of age shall be enumerated by each school district of the State during the month of June. The census enumeration reported in the table below was made in June 1979.

The number of school age pupils in each district of a county includes all pupils from five years through twenty years of age. However, state apportionment is distributed to school districts on the basis of the number of pupils from five years through eighteen years of age. Compulsory school age limits in Nebraska are from seven years through fifteen years of age.

NUMBER OF BIRTHS, BIRTH RATE, AND SCHOOL ENROLLMENTS CONTINUE TO DROP

The following table is an abstract from the 1978 report of the Bureau of Vital Statistics of Nebraska State Department of Health. The complete table is on Page 2 of the 1978 report and reports data since 1925.

YEAR	ESTIMATED POPULATION	NUMBER OF BIRTHS	RATE PER 1000 POP.

1977	1,561,155	25,158	16.1
1978	1,565,390	25,104	16.0

This table indicates that the number of births for the 1978 year was down 9,440 from the peak reached in 1961. A comparison of births to first grade enrollment six years later illustrates the effect of the decline in the number of births on school enrollments, reference the report on the following page. An increase in the number of births for 1977 should be noted, as this may be an indication of a bottoming-out point in the declining birth situation in the state.
